- Tracks prepared by snowmobile
- Tourist tracks

## Rules of miniskirogaining:

Choose one of the 2 starts/goals marked on the map. Your task is to reach as many controls and points as possible within 3 hrs. At each visited control you gain points that are calculated from the control code; multiply the 2nd digit of the code by ten to get the points, e. g. control No. 34 = 40 points, etc. In case you don't make it within the 3 hr limit, take away 5 points for each excess minute. Detailed rules to be found on website:
